prep week

figma weekend project

The following exercise contains the following subjects:

● figma

● design principles

● mobile design

Instructions

1. you are a designer and you need to create a design for a computer selling business store.

2. You need to create 3 pages:

   1. main page: showing the services of the store and why you should come there

   2. about page: where you are and who you are (invent the details)

   3. testimonials page: 3 stories from happy costumers.

3. Create these 3 pages for desktop **and** mobile (i.e. 6 page in total).

4. Create a file in which you will describe your design decisions. The main decisions are:

   1. select 3 main colors. Explain why you selected them based on color theory. Explain how you used them to create visual hierarchy

   2. Select 2 fonts to use in your typography. Explain why you selected them and how you plan to use them.

   3. Explain how you implemented your mobile design in comparison to the desktop design. What did you changed? Why?

5. Create github repo with the explenations file and a file with the figma link inside it. Send me the github link **by sat 2.9 23:00**.
